

Product Datasheet

MiniLED600

The MiniLED600 is an efficient remote control LED fibre optic dimmable twinport light source with a twinkle effect.

A compact remote allows the user to stop/start the twinkle, increase/decrease the LED brightness level or set the unit to standby. Rotational speed of the wheel motor can be set using DIP switches on the unit.

Using the Starscape Infinity system, the MiniLED600 has a capacity of 1200 mixed diameter star points.

Optical port size (ID)	20mm
Supported fibre types	PMMA / Glass
Supply voltage	240ac via transformer 3 pin plug
PSU output	12v DC
Power consumption	12 watts
LED (power & colour temperature)	2x 5w (Cool white)
Operating temperature range	-10°C / +40°C
Operating environment	Dry, ventilated.
Control options	Radio remote control (315mhz)
Effects range	White light twinkle
Dimensions	126 x 115 x 82.5 mm
Weight	600gr
LED Lifespan	50,000 hours (nominal)
Material & colour	Steel – grey, Aluminium - silver
Country of manufacture	China (ISO9001 accredited)
